

The Department of Statistics at Rice University invites applications for a tenure-track position. Priority hiring is at the Assistant professor level, however, highly qualified, experienced candidates may be considered at the rank of Associate Professor. A doctorate in statistics or a related field is required, with potential or proven excellence in research and teaching.

Applications are sought from areas of modern statistics that will enhance the George R. Brown School of Engineering's focus on Data Science and the understanding of complex data, while strengthening the core research of the department. Example of areas include but are not limited to Bayesian methods, computational finance, functional data, multivariate analysis, networks or graphical models, probability theory, statistical machine learning, spatial and temporal processes, statistical computing, stochastic processes and optimization. Several hires within the School of Engineering in the general area of Data Science are expected.

The position begins Fall 2016. Please browse our website for a description of departmental activities and people. To apply go to

<http://facultysearch.statistics.rice.edu/>

Applicants are requested to upload a letter of application, curriculum vita, graduate transcripts, and reprints/preprints. Please include names and addresses, including e-mail, of three individuals who will be contacted for letters of recommendation.

Inquiries to: [phyllis@stat.rice.edu](mailto:phyllis@stat.rice.edu). Include "Faculty Search" in the subject line of the e-mail.

The review of applications will begin [December 16, 2015](#). Applications will continue to be accepted beyond this date until the position is filled. Interviews will begin mid January.

Rice University is an Equal Opportunity/Affirmative Action employer and is committed to increasing the diversity of its faculty.
